

Welcome to Track It Forward!

Track it Forward is a new way of tracking volunteer hours that allows all hours to be tracked by you, at your convenience. Not only is it all done online, but there is even an app for your smartphone to make it easier! This new way of tracking volunteer hours allows you to choose the number of hours that you worked, and tell us what you did! You track it and we give you credit for it! It's as simple as that!

First thing's first: We need you to make an account by going through our link!

(Need Link)

As soon as you create your account you can log your hours! When you log in you should see the information pictured below.

Log Hours

Hours:

Date Volunteered: 

Activity:

Notes:

Submit Time

First, choose the number of hours you are logging in the drop down box.

Second, select the date these hours were volunteered.

Third, type in whatever activity you were a part of and any notes you would like to leave about that activity.

Hit Submit!

Just like that, you're done! You can also see how many hours you've worked and how many you have left to reach the 25-hour minimum, so you are always aware of what you have left to do!

If using an app on your smartphone makes your life easier, Track It Forward has that too, allowing this to be at your fingertips at all times! Make an account online, and then just log in on the app!

We are so excited to try out this system with you, and we hope you are just as excited about it as we are!
